

The International School
of Choueifat - Lahore

انٹرنیشنل سکول آف شوفاٹ
لاہور

November 20, 2008

Dear ISC Lahore Community:

Reading and the benefits derived from reading have long been touted as an effective way to stretch the boundaries of our knowledge, whether as adults or children. Because SABIS® understands the power of reading and the importance of developing a love of reading, many of our schools implement a program called Accelerated Reader™ or AR™.

Through the AR™ program,

- Students develop the habit of reading on a regular basis.
- Students become familiar with the library and choose books to read within their ability level.
- Reading comprehension is improved through multiple-choice testing and the writing of book reports.
- Students receive recognition for each book they read and work toward achieving their own reading goals.

The ISC Lahore administration has been busy putting all the necessary components in place for the successful launch of this valuable program in November and December. I am pleased to have ISC Lahore join the other SABIS® member schools in implementing this program, and I look forward to seeing the entire school community enjoy the benefits.

Regards,

Carl Bistany
President
